Subject: Retention Calculation — Held to Date of Termination and Treatment Under Sub-Clause 15.4

This calculation records retention held as at the date of termination and its treatment under Sub-Clause 15.4, for the purposes of Employer's Final Account EFA-KFI2-001.

Item	Amount (KLD)
Gross value certified to date (PST-KFI2-011)	15,100,000
Retention Percentage (Contract Data Section 6)	5%
Retention held to date	755,000
Limit of Retention Money (Contract Data Section 6)	1,800,000

The Limit of Retention Money (KLD 1,800,000) was not reached; retention continued to be deducted at 5% on every Statement to date of termination, and the full KLD 755,000 remains held by the Employer as at this calculation.

Per Sub-Clause 15.4, Retention Money held at the date of termination is included in, and released only to the extent, and at the time, the net balance under that Sub-Clause is due to the Contractor. As determined in Employer's Final Account EFA-KFI2-001, the net balance (KLD 1,152,600) is due to the Contractor; the full retention of KLD 755,000 is accordingly released as part of that balance, with no amount withheld.
